your sales representative or call 215.441.5305

### Hardsided with Handle (TechTerm)

The case is stock blow molded with an attractive texture finish. Molded from tough, lightweight, high-density polyethylene with double wall construction which provides maximum product protection. The interior is a charcoal polyether, die-cut foam in the base or convoluted in the lid.

Height: 7 inches    Width: 10.5 inches    Depth: 3 inches

TTCA-8

### ProTerm/PCL with Strap (soft matte vinyl protective housing)

The exterior of the case is a soft matte vinyl protective housing. The padding consists of 3/16" and 3/8" fibrebond while the interior is Black Regency. The case has velcro which allows easy opening and closing. A convenient carry method consists of either a hand strap or shoulder strap.

Height: 8.25 inches    Width: 4.25 inches    Depth: 1.25 inches

VB-120

### Softsided with Strap

The casing is made of durable, water resistant nylon and high density shock absorbing foam. A gusseted outside pocketed with velcro closure holds extra discs. A belt loop on the back and the adjustable/ detachable shoulder strap (with quick release buckles) that converts to a belt, provides flexibility and carrying ease. Standard color is black.

Height: 8.25 inches    Width: 7 inches    Depth: 2 inches

TTPT-1

### ProTerm/PCL with Strap (soft matte vinyl protective housing)

The exterior of the case is a soft matte vinyl protective housing which has a clear plastic cover over the display and keypad. The padding consists of 3/16" and 3/8" fibrebond while the interior is Black Regency. The case has velcro which allows easy opening and closing. A convenient carry method consists of either a hand strap or shoulder strap.

Height: 8.25 inches    Width: 4.375 inches    Depth: 1.25 inches

PCC-1

### ProTerm/PCL with Strap (soft matte canvas protective housing)

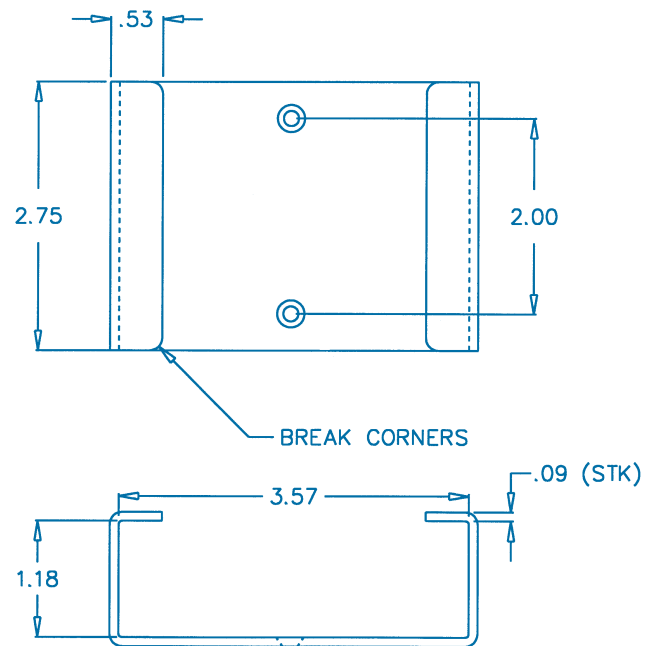

The material is a DuPont nylon fiber, 1050-denier urethane coated basket weaved fabric which is resistant to water, rot and mildew. The foam padding is a closed-cell, high-density Volara foam while the keypad and screen cover is made from a clear vinyl.

Height: 8.25 inches    Width: 4.9 inches    Depth: 1.65 inches

RS-232 SIGNALS                      RS-422 SIGNALS  
PIN NUMBERS REFERENCE THE RJ11 CONNECTOR

Pin numbers reference modular connector on adapter and assumes that terminal will be connected using a reversing type cable such as a Two Technologies P/N 1210-7-BK

Male DB25P

**#1280-F- KIT - Modular to DB-25S**  
**Modular to Female "D" Connector**

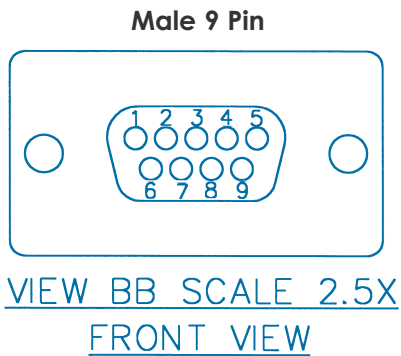

**#1280-M- KIT - Modular to DB-25P**  
**Modular to Male "D" Connector**

## 1280 Kit

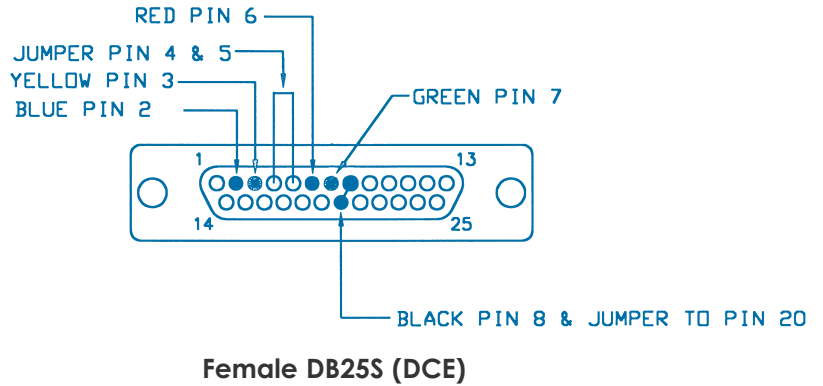

**IMPORTANT:** Standard cables (example 1210-7) with modular connectors on both ends will reverse the signals.

**#1270-F- KIT - Modular to DE-9S**  
**Modular to Female "D" Connector**

**#1270-M- KIT - Modular to DE-9P**  
**Modular to Male "D" Connector**

## 1270 Kit

**IMPORTANT:** To use this adapter, you need a reversing cable (1210 - xx) series.

**NOTE (DTE ONLY):** Looks like a PC serial port. Equipment that can connect to the back of a PC DB25 may utilize this adapter to communicate to a hand held terminal.

1210 - xx Series Cable

#1280-DCE - Modular to DB25-S (DCE)  
Wired Female adapter (w/power socket)

#1280-DTE - Modular to DB25-P (DTE)  
Wired Male adapter (w/power socket)

## 1280 Adapter

6 PIN MODULAR JACK

Power Socket

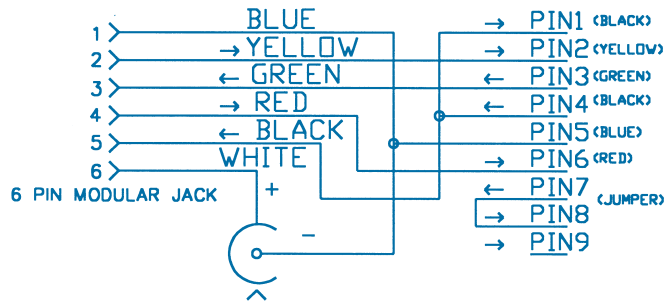

Female DE9

1210 - xx Series Cable

Power Socket

#PCAT - Modular to DE-9S (PCAT)  
Wired adapter (w/power socket)

**NOTE:** Use this adapter to connect terminals (except for PCL products) to a desk or laptop PC.

## PCAT Adapter

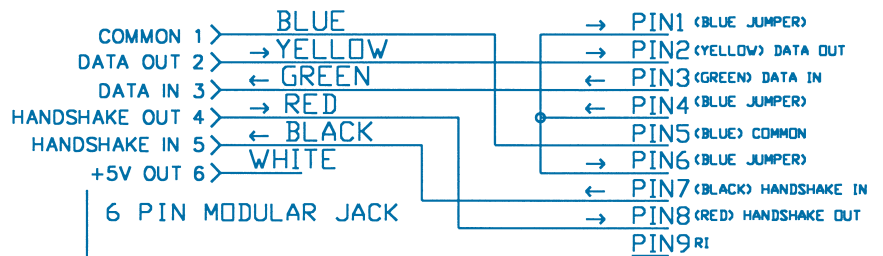

Female DE9

1210 - xx Series Cable

**IMPORTANT:** To use this adapter, you need a reversing cable (1210 - xx) series.

**NOTE:** Use this adapter to transfer data between a PCL and to a desk or laptop PC.

NOTE: PIN DESCRIPTIONS ASSUME CONNECTION THROUGH REVERSING CABLE TYPE (1210-7,15) TO PCL R.J.

#PCLAT - Modular to DE-9S (PCLAT)  
Wired adapter (without power socket)

## PCLAT Adapter

6 PIN MODULAR JACK

Power Socket

Female DE9

1210 - xx Series Cable

Power Socket

**IMPORTANT:** To use this adapter, you need a reversing cable (1210 - xx) series.

**NOTE:** Use this adapter to transfer data between PCL products and desk or laptop PC.

NOTE: PIN DESCRIPTIONS ASSUME CONNECTION THROUGH REVERSING CABLE TYPE (1210-7,15) TO PCL R.J.

#PCLAT-P - Modular to DE-9P (PCLAT-P)  
Wired adapter (w/power socket)

## PCLAT-P Adapter

**Power Supply Wall Mount**  
(7.5 volts to 9 volts DC)

1226-1

**PCL Battery Charger**  
(7.5 volts to 9 volts DC @ 1A)

1226-PCL

**TouchLite Power Supply**  
(15 VDC @ 3A)
